Hybrid classes: The final exams should be given on the day that a regular class would meet, so the exam may be given on a different day but at the same time. This will keep the hybrid classes from breaking into other exam times. Example - hybrid class meets at 1:00 on Wednesday but the final should when a MWF 1:00 class tests, which is Monday.

Weekend Class Times: By arrangement with instructor during finals week

Web Class Times: By arrangement with instructor during finals week

Web students required to take a common final exam that is not given in the ASC should be offered the day or evening section of the final to accommodate their schedules.
