B. University Learning Outcomes

This course enhances student abilities in the following areas:

Technological Skills

Students will use the library and internet resources to research literature to complete research papers, written assignments, and to prepare for class discussions. The use of a variety of technological resources will be a graded component of these written and verbal activities.

Communication Skills

Students will demonstrate appropriate written and verbal communication skills through papers and oral presentations concerning course focus and in accordance with instructions.

Ethics

Students will be able to weigh evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of social work (nationally and internationally) as a discipline, and as a profession. Standard ethical conduct reflected by the CSWE and related international Social Work associations will be addressed.

Global and Cultural Perspectives

Students will be introduced to global and cultural perspectives with respect to the social work profession and in accordance with the CSWE core competency requirements. Written and verbal activities will require that students demonstrate an understanding of these global and cultural perspectives.
